OUSD(AT&L), ARA, PP&E Policy Office
Trish.Vanbelle@osd.mil, (703) 604-63-50x106

12 August 2003

Program update topics

- **Staff and customer changes**
- **Environmental changes**
- **Software changes**
- **Support services update**
- **FY04 road ahead**

Staff and Customer Changes

- **New leadership in Columbus**
 - Chief of operations, Bob Musick
 - New Leads: Jeff Oxendine, Doris Hibbler
- **New DPAS customers:**
 - Joint Staff
 - SOUTHCOM
 - Pentagon Force Protection Agency
 - Counter-Intelligence Field Activity (CIFA)
- **Expanded customers**
 - DCMA
 - MDA
 - PWC (Navy)

Environmental changes

PP&E Policy Office

- Playing larger role in DoD's enterprise architecture development particularly in property systems
- Greater involvement with acquisition community and domain
 - UID
 - Purchase card
- Close ties to Comptroller and FASAB
- Heavily engaged with valuing military equipment

DPAS Program

- Fewer conversions but more complex conversions requiring "customized service"
- More diverse training needs:
 - New customers due to turnover
 - Smarter customers who want to "hone" skills
 - Refreshment of existing customers who need to be updated in software/policy changes
- Increased interface requirements
- Increased technology role to speed processing times, reduce workload and improve accuracy

Software change highlights

Release 16 – January 2003

- New inventory processes
- New financial reports - USSGL accounting

Release 16.3 – July 2003

- DITMS retiring
- DAISY Interface - Automated excessing process
- Improved Standard Queries

Interfaces

- e-Biz (DFAS) – Jan 2003
- DAISY (DRMS) – July 2003
- LMP (Army) - August 2003*
- DWAS (Navy) - pending
- STARS (Navy)- pending
- SABRS (USMC) - pending

*Projected Date

Support Services Update

- **Centrally funded DISA support – September 2002**
- **Expanded QA reports and metrics – September 2002**
- **Expanded Web Site (Phase 1) – January 2003**
- **Expanded Training – January 2003**
- **Added Regional Training – February 2003**
- **Expanding Web Site (Phase 2) – September 2003**
- **Navy eLearning – Spring/Summer 2003**

Road ahead... FY04

Establishing 4 User Groups

Focus on:

- Fixing defects
- Reducing errors; improving accuracy
- Reducing time (e.g. manual data entry, manual reconciliation, etc.)
- Improve user knowledge, proficiency, confidence and satisfaction

Likely to impact:

- Software... training... training manuals... web-site... on-line help...

Participants needed!!!

Volunteers please contact: Pat Scott, DPAS Columbus, Pat.scott@dfas.mil
